

Invacare® | **Top End FORCE-2**

An exceptional piece of design and engineering

The Invacare **Top End FORCE-2** is a truly great bike at a great price, and is essentially a streamlined version of the famous **Top End Force**.

Yes, you can.®

Ready to ride

The bike comes 'ready to ride' complete with 27 speeds, performance wheels and Shimano® components. So whether you're just looking to get started in handcycling or are ready to start entry-level competition, this is the perfect bike for you. It's also a great handcycle for clubs, schools and teams.

Easy to assemble

With just a few easy to assemble parts, your new handbike is up and running... just attach the front fork to the frame, secure the drafting bumper, followed by the front and rear wheels and you're ready to roll. Full assembly instructions are included.

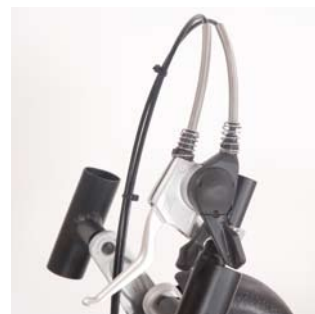

Features and options

Adjustable back angle allows you to recline the back from 35-55 degrees.

Easy to use **Shimano Deore Rapidfire Shifter** delivers hands-on shifting and braking.

The top chain rings utilizes a **manual shifter system** located on upper crank which minimises cables and maintenance.

Did you know?

Top End Force Handcycles Series

The *Invacare Top End Force-2* is part of the **Top End Force Handcycles Series**. If you are looking for more options or an upgraded version, you may be interested in one of the **Top End Force, Top End Force G** or **Top End Force R** models. The aerodynamic *Invacare Top End Force* handcycle design offers an adjustable, lie-down, reclining or super recumbent position which ensures optimum speed

using arm, shoulder and chest muscles. The gut-powered **Top End Force G** handcycle design offers an adjustable, trunk-powered, erect position ideal for low paraplegics and amputees. The *Invacare Top End Force R* is the latest super-recumbent handcycle model in the **Top End Force Series**. This handcycle is designed for performance.
