

Invacare® | **Zimma™ Frames**

Trustworthy, stable, and reliable

The NEW *Invacare Zimma Frame* is a robust fixed walking frame designed for use in both domestic and hospital environments.

Both types are available in a range of sizes to meet the needs of different individuals. The frames are also fully height adjustable making them adaptable to different situations.

Available with or without wheeled extension legs, the *Invacare Zimma Frame* is trustworthy, stable, and reliable.

Yes, you can.®

Features and Options

Range of Types and Sizes

The *Invacare Zimma Frame* is available in both Domestic and Hospital frame types. Both types are available in small, medium and large sizes to suit a range of different patient requirements.

All *Invacare Zimma Frames* are height adjustable by way of a simple push button giving a series of fixed settings.

Wheeled Extension Legs

The wheeled extension legs are available for all *Invacare Zimma Frames*.

They are simple to fit, giving a quick and easy way of converting the frame to a wheeled version.

Range of Types and Sizes

Wheeled Extension Legs
