Tango[®]

Setting a new standard in powered wheelchairs

The Quickie Tango is THE complete, flexible and cost-effective indoor/outdoor powered wheelchair solution.

Comprehensive standard configuration includes:

- Powered seat tilt and manual back recline for improved comfort and pressure distribution
- Width and depth adjustable seat for better fit
- Tension adjustable back with built-in height adjustment for improved fit and posture
- Fold down back for easy transport
- Choice of rear wheel size to meet your environmental needs

Great standard features

The Quickie Tango offers a comprehensive configuration with many seating options included as standard. It also has drive wheel suspension to ensure a smooth and stable ride, and is fully approved for transport with easily accessible tie down points.

Powered seat tilt

Tango offers powered seat tilt from 3 to 25° as standard, ensuring comfort and pressure redistribution is easy and quick to achieve

Manual reclining back

The backrest recline can be adjusted from -3° to 12° in 3° increments without tools

Tension & height adjustable back

Backrest upholstery is tension adjustable for improved user comfort and can be adjusted to 45, 47.5 and 50cm height

- **Adjustable seat width** - Through the width adjustable armrest receiver the seat width can be adjusted from 38 to 50cm
- **Adjustable seat depth** - The backrest can be moved backwards to offer seat depth adjustment from 42.5 to 50cm in 2.5cm increments

- **Height adjustable armrests:** The single post armrests are also height adjustable as standard
- **Width adjustable hangers:** Hangers offer 4cm of outward width adjustment

Fold down backrest

For easy transportation and storage

Articulating drive wheel suspension

Using a new and innovative design concept the Tango features dual suspension units to deliver a soft and smooth ride over rough terrain.

Tie down points

Integrated and easy accessible tie down points at the rear and front of the frame for secure transportation in vehicles

Drive wheel mud guards

Mud guards improve the chair look and protect the user

Tango[®] Comfort

The Quickie Tango Comfort combines the superior driving performance of the Quickie Tango with the comfort of Pro Seating.

Tango Comfort also offers enhanced pressure redistribution as standard thanks to the powered tilt and recline.

Pro Seating Comfort Seat Cushion and Back

This comfort cushion is a slightly contoured foam cushion, featuring a 2cm (3/4") seat angle designed to aid clients in front transfers.

A solid wooden backrest with a supportive yet soft foam that is anatomically shaped with a shallow contour for support and extra comfort.

Comfort Headrest

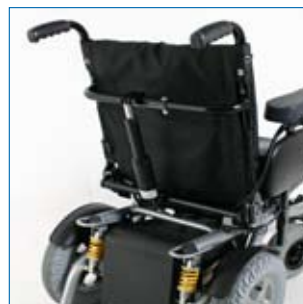

Padded comfort headrest provides additional comfort and support.

Powered Tilt-in-Space

3 to 25° powered tilt-in-space as standard, used in combination with the power recline for comfort and pressure redistribution.

Powered Reclining Backrest

Powered recline (0 to 30°) featuring a higher rotation point that reduces shear compared to many other powered reclines available.

Wide Range of Options

In addition to the standard features the Quickie Tango offers a range of options to meet an individual's needs.

Manual and powered options:

Manual and powered options can be added or removed after purchase via easy to use upgrade kits.

Elevating legrests

- Manual elevating legrests

Back recline

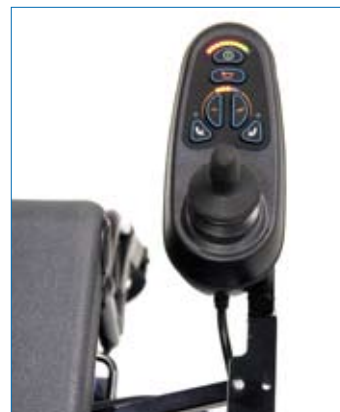

- Manual backrest recline with gas strut, adjustable from -3° to 30°
- Powered backrest recline adjustable through the joystick from -3° to 30°

Electronics

Simple yet efficient electronics make the chair easy to handle and to service and can accommodate all the available powered options.

VR2 programmable electronics

- VR2 controller controls up to two actuators via the joystick
- 60 Amp controller with two actuator ports for easy upgrade via 'Plug and Play' modules
- Dual control option

Parallel swing-away controller (standard)

Lights & indicators

Modern looking lights and indicators available as option for outdoor safety

Additional options

- Three colour choices: Brilliant Silver, Brilliant Blue and Brilliant Red
- Two choices of wheel size (12" x 8" and 14" x 9") pneumatic or solid
- Crutch holder
- Kerb climber
- Swing-away tray table
